

Sheena is an incredible kitty who has lapped from the fountain of youth! This spry black kitty is 17-years-young and going strong. Her favorite pleasures in life are being with people, being held, and having her head and cheeks scratched. Sheena has a healthy coat, a healthy appetite, and is in great overall shape. All she needs now is someone to love. Sheena is content to nap peacefully by your side most of the day and to go exploring once in awhile, too.

Sheena would prefer to be the only pet in the household and is currently getting lots of attention as one of our office foster kitties. Come meet this special kitty today at the Seattle Humane Society in Bellevue. She's available for snuggling from noon to 6 p.m. on weekdays and 11 a.m. to 6 p.m. on weekends.
