Tellington Touch (TTouch)

Walking in Balance with Your Dog

TTouch is a gentle, positive method of bodywork and movement based on more than three decades of results with over 1000 practitioners worldwide. TTouch provides a powerful set of tools and techniques that improve an animal's behavior, performance, health, and that deepen bonds between pets and their human companions.

In this two-hour workshop you will be introduced to positive tools and techniques to help you walk your dog more effectively. We will be focusing on:

- **Leash techniques, e.g. communicating more effectively with your dog**
- **Equipment, e.g. harnesses and leashes**
- **What causes leash pulling**
- **How to influence a change in your walking relationship**
- **Body positioning**
- **You and your dog moving in balance**

Lori Stevens, guild-certified Tellington TTouch practitioner, will teach this workshop. Lori's experience and approach is holistic and one of respect for animals as teachers. See Lori's web site SeattleTTouch.com for more information about TTouch.

You can attend with or without your dog. Please bring an x-pen or crate and a blanket or mat for your dog, and dogs must be able to stay quietly for the majority of the seminar.
